## PRODUCT DATA SHEET

### CANDLE CONTAINER WAX (HARD)

(PHC3414)

A blend of paraffin and vegetable triglycerides designed to produce the optimum performance in a container candle. This product is slightly harder than (PHC3413) and is suitable for use in hotter climates or where a firmer feel to the finished product is required. It has a creamy appearance with excellent fragrance hold and throw. Superb glass adhesion and very little contraction. Suitable for use by the small candlemaker or multi-unit production.

Congealing point	48 - 52°C
Needle Penetration @ 25.0°C	50 – 70 1/10mm
Colour Saybolt	5.0 – 30.0

Supplied in 5 Kilos slabs in bags of 25 Kilos
