PRODUCT DATA SHEET

LOW MELT POINT FULLY REFINED PARAFFIN WAX (PHCTW4448)

Paraffin Wax is derived from the dewaxing and de-oiling of petroleum. Soft or low melt point paraffin waxes are mixtures of the different paraffin wax components. TW4448 is a fully refined product ideal for industrial and technical applications such as car care and wood care pastes, paint stripper or for modifying existing blends to lower the melting temperature and reduce hardness.
