

BEESWAX SUBSTITUTE (PHC 6621)

Beeswax Substitute 6621 is formulated to produce excellent emulsifying properties, providing a stabilizing, oil binding effect. It also reduces any potential discoloration of emulsions when compared to natural waxes. The characteristic hardness and higher melting point enable consistency control in waterless blends. Beeswax 6621 contains no beeswax or animal derived products and is suitable for vegans. Suitable for use in pharmaceutical creams.

Packaging: 25 Kilo cartons/bags

CP: 57-60°C

DP: 67-74°C

COLOUR: Pale Yellow Pellets

AV: 19 – 23 mg KOH/g

EV: 5- 8 mg KOH/g

SV: 24 – 33 mg KOH/g

INCI: Synthetic Beeswax

CAS: 71243-51-1

EINECS: 232-383-7
