

CANDLE CONTAINER WAX (PHC 3413)

A blend of paraffin and vegetable triglycerides designed to produce the optimum performance in a container candle. The low melt point of this product helps produce excellent fragrance hold and throw. It has a creamy appearance which is easy to colour and gives superb glass adhesion with very little contraction suitable for use by the small candlemaker or in multi-unit production.

Available in slab form. Packaging: 25 Kilo bags.
