

OZOKERITE WAX (PHC 7726)

Ozokerite waxes are distinguished by their higher melting points and are soluble in mineral, hydrocarbon and vegetable waxes as well as most synthetic waxes. They are insoluble in water and alcohols. Being non-toxic, non-irritating and non-hazardous makes them ideal for cosmetic and personal care products. Their relative hardness allows for increased viscosity, gel strength and consistency in colour cosmetics. Due to their exceptional oil retention Ozokerite waxes are also widely used in polishes, waterproofing and lubricating formulations.

Available in slab/pellet form. Packaging: 25 Kilo bags

MP: 78 - 83°C

CP: 70 – 76°C

PEN: 7 - 14 (dmm)

Product Status

- Organic
- Natural
- Vegan
- Kosher
