

WHITE NATRALEEN (PHC 9021)

A blend of natural waxes and oils designed to replicate the physical characteristics of mineral oil derived petroleum jelly. Natraleen is thermally stable, easily emulsified and compatible with many other substances, including polar additives, making it ideal for use in balms, lotions and hair care products. Like Petrolatum, Natraleen shows good occlusive behaviour, forming a barrier to help protect the skin. The inclusion of Sunflower oil and Beeswax gives excellent emollient and structural characteristics.

Packaging: plastic pails. Approx. 8 kilos

CP: 51 – 56°C

MP: 72 – 77°C

CONE PEN: 135 – 165 (mm x 0.1)
