Rapeseed Pillar Wax TW9562

Rapeseed Pillar Wax TW9562 is a European origin rapeseed wax blend with a minimal hydrocarbon addition to improve finish and performance

Creamy white in colour with a porcelain-like finish

Can be used as a standalone Pillar wax or for wax melts and votives

TW9562 provides a high quality luxurious finish to your candle and excellent fragrance retention and a clean, long lasting burn

INSTRUCTIONS FOR USE

1. Melt TW9562 Rapeseed to 10-15°C above melting point (see product info for melting point)
2. It is important to check that the wax is completely melted and transparent
3. After melting cool down to 65-80°C (+/- 5°C)
4. Pour into mould
5. One or two pours may be required
6. Allow to cure for at least 48 hours before burning

FACTORS INFLUENCING THE FINISHED LOOK OF THE CANDLE

Heating Temperature

If the wax has not been completely melted (completely transparent) crystallisation may cause frosting

Pouring Temperature

Varying the pouring temperature can cause changes in appearance after cooling

Containers and moulds need to be at room temperature or higher

Cooling Temperature

Cooling too fast may cause wet spots and cracks. Cooling too slow may cause frosting

Maximum Recommended Fragrance - 6-12%

Vegan Friendly

Supplied in pellet form in 25 kilo paper bags
