

LOW MELTING FULLY REFINED PARAFFIN WAX (PHC 4021)

Paraffin Wax is derived from the dewaxing and de-oiling of petroleum. Soft or low melt point Paraffin Waxes are a mixture of the different Paraffin Wax components. This wax has a smooth feel, soft and malleable with some degree of tack and is suitable for cosmetic and pharmaceutical applications. Ideal for use in manicure and pedicure preparations holding colour and fragrance extremely well. Its low melt point makes this choice product for physiotherapy, aromatherapy, mineral and healing earths, creams, lotions and soft lip care products.

Available in slab form. Packaging: 25 Kilo bags.
