

EU GOLDEN WAX 464 (PHC 3464)

EU Golden Wax 464 is manufactured in Sweden and offers the same trusted formulation as the popular U.S. Golden Wax 464, but with enhanced performance. Made from responsibly sourced soybean oil, it is GMO-free, vegan friendly, and produced with the utmost respect for the environment and the people involved. With a strong commitment to sustainability, this exceptional container candle wax delivers excellent scent throw, reduced risk of frosting compared to the U.S. version, strong glass adhesion, vibrant colours and beautifully smooth surfaces between burns. Pale in appearance, EU Golden Wax 464 ensures professional, consistent results that will set your candles apart.
